

Selective Service System

§ 1665.2

Records Manager, Public & Intergovernmental Affairs, Arlington, VA 22209-2425. The written inquiry should contain a specific reference to the system of records maintained by Selective Service listed in the SSS Notices of Systems of Records or it should describe the type of record in sufficient detail to reasonably identify the system of records. Notice of SSS Systems of Records subject to the Privacy Act is in the FEDERAL REGISTER and copies of the notices will be available upon request to the records manager. A compilation of such notices will also be made and published by the Office of Federal Register, in accord with section 5 U.S.C. 552a(f).

(b) At a minimum, the request should also contain sufficient information to identify the requester in order to allow SSS to determine if there is a record pertaining to that individual in a particular system of records. In instances when the information is insufficient to insure that disclosure will be to the individual to whom the information pertains, in view of the sensitivity of the information, SSS reserves the right to ask the requester for additional identifying information.

(c) Ordinarily the requester will be informed whether the named system of records contains a record pertaining to the requester within 10 days of receipt of such a request (excluding Saturdays, Sundays, and legal federal holidays). Such a response will also contain or reference the procedures which must be followed by the individual making the request in order to gain access to the record.

(d) Whenever a response cannot be made within the 10 days, the records manager will inform the requester of the reason for the delay and the date by which a response may be anticipated.

[47 FR 7224, Feb. 18, 1982; 69 FR 1525, Jan. 9, 2004]

§ 1665.2 Requests for access.

(a) Requirement for written requests. Individuals desiring to gain access to a record pertaining to them in a system of records maintained by SSS must submit their request in writing in accord with the procedures set forth in paragraph (b) below.

(b) *Procedures*—(1) *Content of the request.* (i) The request for access to a record in a system of records shall be addressed to the records manager, at the address cited above, and shall name the system of records or contain a description of such system of records. The request should state that the request is pursuant to the Privacy Act of 1974. In the absence of specifying solely the Privacy Act of 1974 and, if the request may be processed under both the Freedom of Information Act and the Privacy Act and the request specifies both or neither act, the procedures under the Privacy Act of 1974 will be employed. The individual will be advised that the procedures of the Privacy Act will be utilized, of the existence and the general effect of the Freedom of Information Act, and the difference between procedures under the two acts (e.g. fees, time limits, access). The request should contain necessary information to verify the identity of the requester (see §1665.2(b)(2)(vi)). In addition, the requester should include any other information which may assist in the rapid identification of the record for which access is being requested (e.g., maiden name, dates of employment, etc.) as well as any other identifying information contained in and required by SSS Notice of Systems of Records.

(ii) If the request for access follows a prior request under §1665.1, the same identifying information need not be included in the request for access if a reference is made to that prior correspondence, or a copy of the SSS response to that request is attached.

(iii) If the individual specifically desires a copy of the record, the request should so specify.

(2) *SSS action on request.* A request for access will ordinarily be answered within 10 days, except when the records manager determines that access cannot be afforded in that time, in which case the requester will be informed of the reason for the delay and an estimated date by which the request will be answered. Normally access will be granted within 30 days from the date the request was received by the Selective Service System. At a minimum, the answer to the request for access shall include the following:

§ 1665.2

32 CFR Ch. XVI (7–1–13 Edition)

(i) A statement that there is a record as requested or a statement that there is not a record in the system of records maintained by SSS;

(ii) A statement as to whether access will be granted only by providing copy of the record through the mail; or the address of the location and the date and time at which the record may be examined. In the event the requester is unable to meet the specified date and time, alternative arrangements may be made with the official specified in § 1665.2(b)(1);

(iii) A statement, when appropriate, that examination in person will be the sole means of granting access only when the records manager has determined that it would not unduly impede the requester's right of access;

(iv) The amount of fees charged, if any (see § 1665.6) (Fees are applicable only to requests for copies);

(v) The name, title, and telephone number of the SSS official having operational control over the record; and

(vi) The documentation required by SSS to verify the identity of the requester. At a minimum, SSS's verification standards include the following:

(A) *Current or former SSS employees.* Current or former SSS employees requesting access to a record pertaining to them in a system of records maintained by SSS may, in addition to the other requirements of this section, and at the sole discretion of the official having operational control over the record, have his or her identity verified by visual observation. If the current or former SSS employee cannot be so identified by the official having operational control over the records, identification documentation will be required. Employee identification cards, annuitant identification, drivers licenses, or the *employee copy* of any official personnel document in the record are examples of acceptable identification validation.

(B) *Other than current or former SSS employees.* Individuals other than current or former SSS employees requesting access to a record pertaining to them in a system of records maintained by SSS must produce identification documentation of the type described herein, prior to being granted

access. The extent of the identification documentation required will depend on the type of record to be accessed. In most cases, identification verification will be accomplished by the presentation of two forms of identification. Any additional requirements are specified in the system notices published pursuant to 5 U.S.C. 552a(e)(4).

(C) *Access granted by mail.* For records to be accessed by mail, the records manager shall, to the extent possible, establish identity by a comparison of signatures in situations where the data in the record is not so sensitive that unauthorized access could cause harm or embarrassment to the individual to whom they pertain. No identification documentation will be required for the disclosure to the requester of information required to be made available to the public by 5 U.S.C. 552. When in the opinion of the records manager the granting of access through the mail could reasonably be expected to result in harm or embarrassment if disclosed to a person other than the individual to whom the record pertains, a notarized statement of identity or some similar assurance of identity will be required.

(D) *Unavailability of identification documentation.* If an individual is unable to produce adequate identification documentation the individual will be required to sign a statement asserting identity and acknowledging that knowingly or willfully seeking or obtaining access to a record about another person under false pretenses may result in a fine of up to \$5,000. In addition, depending upon the sensitivity of the records sought to be accessed, the official having operational control over the records may require such further reasonable assurances as may be considered appropriate e.g., statements of other individuals who can attest to the identity of the requester. No verification of identity will be required of individuals seeking access to records which are otherwise available to any person under 5 U.S.C. 552, Freedom of Information Act.

(E) *Access by the parent of a minor, or legal guardian.* A parent of a minor, upon *presenting suitable personal identification*, may access on behalf of the minor *any record pertaining to the minor*

Selective Service System

§ 1665.4

maintained by SSS in a system of records. A legal guardian may similarly act on behalf of an individual declared to be incompetent due to physical or mental incapacity or age by a court of competent jurisdiction. *Absent a court order or consent*, a parent or legal guardian has no absolute right to have access to a record about a child. Minors are not precluded from exercising on their own behalf rights given to them by the Privacy Act.

(F) *Granting access when accompanied by another individual.* When an individual requesting access to his or her record in a system of records maintained by SSS wishes to be accompanied by another individual during the course of the examination of the record, the individual making the request shall submit to the official having operational control of the record, a signed statement authorizing that person access to the record.

(G) *Denial of access for inadequate identification documentation.* If the official having operational control over the records in a system of records maintained by SSS determines that an individual seeking access has not provided sufficient identification documentation to permit access, the official shall consult with the records manager prior to finally denying the individual access.

(H) *Review of decision to deny access.* Whenever the records manager determines, in accordance with the procedures herein, that access cannot be granted the response will also include a statement of the procedures to obtain a review of the decision to deny in accord with §1665.5.

(vii) *Exceptions.* (A) Nothing in these regulations shall be construed to entitle an individual the right to access to any information compiled in reasonable anticipation of a civil action or proceeding. The mere fact that records in a system of records are frequently the subject of litigation does not bring those systems of records within the scope of this provision. This provision is not intended to preclude access by an individual to the records which are available to that individual under the other processes such as the Freedom of Information Act or the rules of civil procedure.

(B) Within any system of records pertaining to possible violations of the Military Selective Service Act, the identity of or any information pertaining to any individual who provides information relating to a suspected violator will not be revealed to the suspected violator. This exemption is made under the provision of 5 U.S.C. 552a(k)(2).

§ 1665.3 Access to the accounting of disclosures from records.

Rules governing the granting of access to the accounting of disclosure are the same as those for granting accesses to the records (including verification of identity) outlined in §1665.2.

§ 1665.4 Requests to amend records.

(a) *Requirement for written requests.* Individuals desiring to amend a record that pertains to them in a system of records maintained by SSS must submit their request in writing in accord with the procedures set forth herein. Records not subject to the Privacy Act of 1974 will not be amended in accord with these provisions. However, individuals who believe that such records are inaccurate may bring this to the attention of SSS.

(b) *Procedures.* (1)(i) The requests to amend a record in a system of records shall be addressed to the records manager. Included in the request shall be the name of the system and a brief description of the record proposed for amendment. In the event the request to amend the record is the result of the individual's having gained access to the record in accordance with the provisions concerning access to records as set forth above, copies of previous correspondence between the requester and SSS will serve in lieu of a separate description of the record.

(ii) When the individual's identity has been previously verified pursuant to §1665.2(b)(2)(vi), further verification of identity is not required as long as the communication does not suggest that a need for verification is present. If the individual's identity has not been previously verified, SSS may require identification validation as described in §1665.2(b)(2)(vi). Individuals desiring assistance in the preparation of a request to amend a record should
